**field meaning**

Terminations of opposition procedures according to Rule 60 EPC are advertised under section II.7(6) of the European Patent Bulletin.

**Rule 60(1):**

In case of surrender or lapse in all contracting states of a European patent for which opposition proceedings are pending, the EPO informs the interested parties about the lapse or surrender of the patent. Within 2 months as from the notification, the opponent may file a request for the continuation of the proceedings. If no such a request is made, the opposition proceedings are terminated automatically and this event is advertised in the bulletin under the above-mentioned section.

**Rule 60(2):**

In the event of death or legal incapacity of an opponent, the opposition proceedings may be continued by the European Patent Office of its own motion. The same shall apply when the opposition is withdrawn.

In case the opposition proceedings are not continued by the EPO of its own motion, this event is advertised in the European Patent Bulletin under the above-mentioned section.
