code meaning

According to the provisions of art. 29 of the Dutch Patents Act, within 3 months after the publication of the grant or the maintenance of the patent as amended in the European Patent Bulletin for a patent which designates the Netherlands as a contracting state, a translation of the amended specification in Dutch has to be made available to the Netherlands Patent Office. In case of failure to observe this provision, the European patent shall be deemed to be void ab initio in the Netherlands.

Also annual renewal fees have to be paid from the third year after the filing date of the application.

This code refers to the cases where the patent has been declared void ab initio in the Netherlands because the translation has not been filed in due time or the renewal fees have not been paid in the Netherlands.
